

Flying at Walker field, March of 2014

The Creswell RC Flyers fly regularly at the north end of Walker Field a few miles south of the Creswell. It is becoming one of Oregon's finest flying fields.

Where to get Radio Control model supplies

Many Creswell RC Flyers members get their building and flying supplies at *Trump's Hobbies, 2401 NW Kings Corvallis, OR*. Trump's carries radio control products and will happily order any items that may not be in stock.

Eugene Toy & Hobby at 32 E. 11th Ave. in Eugene. Stop into the store and see Mark, Alan or Jim to get your hobby supplies. There also are numerous suppliers of radio control products online.

Creswell RC Flyers club members will help you find anything you need to get started and enjoy the hobby.

Radio Control model aviation

Radio control model aviation is the fascinating hobby of building and flying miniature aircraft that the pilot controls by radio.

Radio control fliers love the experience of flying an aircraft as it climbs, loops and dives through its infinite variety of maneuvers.

There's nothing like the satisfaction of building a sophisticated small aircraft and then successfully flying.

Beginners can start out with simple, easy-to-build and easy-to-fly airplanes. As they advance in their skills, they learn to guide the airplane through many kinds of maneuvers. Some enjoy taking the flying a step further into contest flying.

Modelers learn many sophisticated skills along the way to building beautiful and functional aircraft.

Modelers also learn to operate and maintain small engines in many different styles and configurations.

Fun Fly events

Several "Fun Fly" events are held each year. Fun flying (most raffle prizes for flying or other activities) and a BBQ are common activities held at a "Fun Fly".

FUN FLY shade seekers

Club meetings

The Creswell RC Flyers meet at 6 p.m. monthly at an inside location, except the summer months when we meet at the field. Check the web page or see the newsletter for details on upcoming meetings.

How to join

Annual dues are \$100 per year, and a \$100 initiation fee. (as of 2014)

Academy of Model Aeronautics (AMA) membership is required for membership in the Creswell RC Flyers club and use of the flying field. AMA membership includes accident and liability insurance for members and comes with the excellent *Model Aviation* magazine.

For more information, contact The Academy of Model Aeronautics via the web site, www.modelaircraft.org. Information is also available in the *Model Aviation* magazine, which can be purchased locally at Eugene Toy & Hobby.

About the

Creswell RC Flyers

The Creswell RC Flyers is a not-for-profit group of radio control model aviation enthusiasts who ...

- Fly radio controlled model aircraft.
- Meet monthly to share model building and flying techniques
- Share information on radio controlled model products, and modeling events
- Encourage and educate youth and novice radio controlled flyers
- Participate in model airplane fun-fly and social events
- Float flying – at Dexter Lake
