

## **Creswell RC Flyers**

### **Meeting Minutes**

**Date: 01/10/23**

Meeting called to order by Club President Bill Schneider

December Minutes were deferred.

Treasurer's Report was presented by Kevin Taylor. End of the calendar year treasury report was presented and discussed including options for cost reduction for the coming year. Kevin has contacted the sanitation company and will be moving from a pre-scheduled porta-potty service to a "call-as-needed".

Kevin also shared that he is moving our club banking to an on-line format to expedite payment and record keeping. Due to delays in getting checks, several payments were due which Kevin paid with personal funds to avoid delays. The club approved he pay himself back for personal expenses.

New Business:

Sponsorships: Glenn has been working on securing sponsorships for the club throughout the Creswell area. My Boy's Pizza has sponsored \$125. Glenn will follow up with other businesses in the coming month. Kudos to Glenn for taking on this task for the club.

Website: Jim Corbett reminded the club to provide any feedback for website changes or corrections to keep it updated. He also reminded members to send him photos from the field to be uploaded. Kudos to Jim for all he has done for our club.

2023 Events: The club has decided to pursue scheduling a Swap Meet for May. It has been three years since the last event due to COVID restrictions. Several dates in May were proposed and Bill Hastings will contact the City of Creswell to schedule the community center. A Summer Fun Fly event will be discussed at the March meeting. A float flying event was briefly discussed and issues with permit-process with the Corps of Engineers will need to be resolved. Tim will contact the Corps and report back to the club.

New Gate Combination: The combination to the gate and porta-potty has been changed as with past practice. The new combination will be provided to club members upon their renewal.

Club Recognition: Recognition plaques were presented for past members Rod Madison and John Risbrough for their years of service and dedication to the club. Arrangements will be made to get the plaques to them.

Show & Tell: Kevin gave a great presentation on 3D printing and applicable applications for RC planes. He brought several 3D printed airplane parts to share and explained how the process works from start to finish. Kevin is happy to help other members with 3D printing as long as costs for materials are covered. Kevin will also ask for a donation to be made to the club for his time to produce a 3D printed item. Thanks Kevin!

Meeting adjourned at 6:30 p.m.

Respectfully submitted,

Tim Herrmann, Secretary
