

Creswell Airport Fly-In

REPORT Saturday Aug 10, 2013

Rod Madison photos and report

The airport function was a lot of fun. Between the Cottage Grove Club and ours we had at one point 20 members helping out and having fun. There were many RC Planes for sale and for display. We handed out some 20 flyers and Brad was very much involved in talking to people about our Club and Paint Ball event.

Paint ball aircraft ready for September event

The Beaver plane and Duck plane drew lots of attention to our booth then the questioning started. We had several people asking about our club and at last count about 15 brochures were handed out also.

RC static display at Airport Fly-In

The full scale airplanes were so much fun to see one guy had a home built not much bigger than a soap box car with wings and had a 1/2 of a Volkswagen engine for power and was quite a sight.

Life flight Helicopter

The Life Flight Helicopter showed up it was quite nice.

Full Scall J3 Cub

And of course Sid Voorhees Piper Cub was my favorite what a beautiful plane. I have scheduled a ride with him that will be a dream come true.

The breakfast was great, they had a dunk tank, full scale swap meet and classic car show too.

Cesna 142

Cesna 149

The full scale pilots were giving airplane rides to the Young Eagles group of kids our next generation of pilots all in all it was a great day and lots to see and check out. There were both a Cessna 140 and 142 that showed up both were nice old airplanes. And there was even a car airplane yes a airplane you could drive down the highway then fold out the wings and take to the air. It was interesting but had as many moving parts as a helicopter.

Car plane

Full scale Cirrus

Lance air that flew around the World

Swap meet with Cottage Grove Club

Cesna 150

For \$250.00 you could loose your lunch on a ride

Piper Comanche

Our booth at event. Lots of people took paintball flyers

Swap meet and static display

Thanks to everyone who came out and helped with the booth it was nice to be with you all for the day.
