

Communication from CRCF Officers

February 2, 2012

I am sorry that the field will be closed Saturday morning the 3rd of February from around 8:00 AM until around 12:00 or 1:00 PM. We are going to aerate, over seed, fertilize, lime and spread sand in the low spots and around the mole holes. I know this is supposed to be a great flying day but it is also a great field improvement day that we will all be able to take advantage of this spring and summer.

Also we will be adding gravel to the parking area to enlarge it just a little on Saturday as well.

We will be also installing a hand soap dispenser in the hanger and there will be a smoking post installed as well outside the hanger. While I do not smoke I know that some of you do and we just want to keep the Cig Butts contained. Actually I have not see any cig butts for a long time so keep up the great job of policing the grounds and the post will aid us in our efforts.

I want to thank Dave our Gopher exterminator for the great job he does keeping on top of the gophers Thanks Dave.

I would like to mention that Delayne Thompson built us a bench to set our tool box on that Bill Snyder donated a big thanks to both of them also.

I also heard that we have a new wind sock that was installed today and can't wait to see it thanks to all who helped with that needed aspect of our field.

Please attend our next meeting as they are important, with that said I won't be able to be there I know really, however Khoi will have this years budget to vote on and any other items that need addressed check web site for date and time.

I am grateful to everyone who has contributed to our little flying club. We have all contributed in our own ways and that is what makes a strong flying club. I am also grateful for all of the friendships that the club has enabled us to form. In our first year we have accomplished a lot with few funds and that cannot be done without volunteers, direction, and participation from the members so thanks to all.

Enough said happy flying.

Rod
